

TOWN OF HUDSON LOWELL ROAD SIDEWALKS

Existing Conditions

CLD has developed project plans for construction of approximately 2,100 LF of new sidewalks as part of a Transportation Enhancement project for the Town of Hudson on Lowell Road.

TOWN OF HUDSON LOWELL ROAD SIDEWALKS

CLIENT

Town of Hudson
Engineering Department
12 School Street
Hudson, NH 03051
(603) 886-6008
Contact: Gary Webster

LOCATION

Lowell Road
Hudson, New Hampshire

THE CHALLENGE

This existing urban corridor is a mix of residential, commercial and industrial uses with extensive traffic and no pedestrian amenities.

Significant utilities exist within the corridor including overhead power, telephone and cable, as well as underground facilities for gas, telephone, sewer and water. The Town desired minimization of conflicts between proposed sidewalk and drainage facilities in order to eliminate utility relocation and streamline the construction schedule.

One of the key design goals was to improve access management and traffic calming through the reduction of open curb cuts across the frontages of businesses to improve the safety for pedestrians.

THE RESULTS

This project includes new sidewalk construction, granite curbing, crosswalks, retaining walls, and associated drainage improvements along a main commercial street near the Town center. The new sidewalk will provide a pedestrian pathway for neighborhoods adjacent to the Lowell Road corridor for connection to businesses, services, and schools.
